FINANCIAL REVIEW**Financial position****Total assets**

As at 31 March 2013, the consolidated assets of BIGBANK AS Group totalled 282.9 million euros, having increased by 2.2 million euros (0.8%) during the quarter.

As at 31 March 2013, loans to customers accounted for 83.3% of total assets, the proportion of liquid assets (amounts due from banks and held-to-maturity financial assets) was 13.2%.

Liquid assets

At the end of the first quarter, liquid assets totalled 37.4 million euros.

Held-to-maturity financial assets

Free funds are partly invested in short-term debt securities with fixed payments and maturities, which the Group intends to and is able to hold until maturity. At 31 March 2013, the Group had debt securities of 8.1 million euros.

Loans to customers

At the end of the first quarter, the Group had 170 thousand loan agreements, 40 thousand of them in Estonia, 73 thousand in Latvia, 28 thousand in Lithuania, 18 thousand in Finland, 7 thousand in Spain and 4 thousand in Sweden.

Geographical distribution of loans to customers:

- 25.4% Estonia,
- 26.2% Latvia,
- 22.1% Finland,
- 11.3% Lithuania,
- 6.6% Spain,
- 8.4% Sweden.

At 31 March 2013, loans to customers totalled 235.7 million euros, comprising of:

- the loan portfolio of 250.3 million euros, loans to individuals accounting for 96.0% of the total;
- interest receivable on loans of 25.2 million euros;
- impairment allowances for loans and interest receivables of 39.8 million euros (consisting of an impairment allowance for loans of 29.6 million euros, an impairment allowance for interest receivables of 5.7 million euros and a statistical impairment allowance of 4.5 million euros).

BIGBANK's loan portfolio is diversified – at the reporting date the average loan was 1,807 euros and as at 31 March 2013, 40 largest loans accounted for 4.0% of the loan portfolio.

BIGBANK AS focuses on the provision of consumer loans. In line with the corporate strategy, as at 31 March 2013 loans against income accounted for 87.0%, loans against surety for 6.9%, loans secured with real estate for 5.3% and loans with insurance coverage for 0.1% of the total loan portfolio.

Past due loans

As regards past due receivables, it is important to note that the collection of non-performing consumer loans differs significantly from the recovery of loans that have physical collateral (for example, mortgage-backed loans). Due to their nature (as a rule, consumer loans are backed with the customer's regular income), claims related to terminated consumer loans are satisfied in smaller instalments over an extended period rather than in a lump sum raised through the sale of the collateral.

Impairment allowances

Past due loans comprise all scheduled loan payments that are in arrears and any loan principal that has fallen due because of termination. Under the terms and conditions of its loan agreements, the Group may terminate an agreement unilaterally if at least three scheduled payments are in arrears. When an agreement is terminated, the customer has to settle any outstanding loan principal, any accrued interest, and any collateral claims resulting from the settlement delay.

Loans past due for more than 90 days consist of past due principal payments plus the total amount of loan principal that has fallen due in connection with termination of agreements.

To mitigate the risks arising from customers' payment behaviour and to cover potential credit losses, the Group makes impairment allowances, which are created on a conservative basis. At 31 March 2013, impairment allowances totalled 40.5 million euros, consisting of:

- impairment allowances for loan receivables of 29.6 million euros,
- impairment allowances for interest receivables of 5.7 million euros,
- statistical impairment allowances of 4.5 million euros,
- impairment allowances for other receivables of 0.7 million euros.

Where debt recovery proceedings do not yield expected results, the underlying receivable is written off the statement of financial position.

Liabilities

At the end of the first quarter of 2013, the Group's liabilities totalled 223.3 million euros. Most of the debt raised by the Group, i.e. 218.4 million euros (97.8%) consisted of term deposits.

Equity

In the first quarter of 2013, the Group's equity grew by 0.2 million euros (0.4%) to 59.7 million euros. The equity to assets ratio amounted to 21.1%. At the end of the first quarter, capital adequacy was 19.9% (Basel II) compared with 21.2% at the end of 2012.

As at 31 March 2013, capital adequacy at the level of the parent company was 16.4%.

The definition of a consolidation group for the purposes of calculating capital adequacy does not differ from the definition of a consolidation group for the purposes of preparing financial statements.

Under Section 73 of the Credit Institutions Act, Tier 1 own funds (Tier 1 capital) consists of:

- paid-up share capital;
- capital reserve and other reserves formed based on the law and the articles of association using profit;
- prior years' audited retained profits;
- profit for the reporting year that has been checked by the credit institution's auditor.

In calculating Tier 1 capital, the following is deducted:

- intangible assets.

Under Section 77¹ of the Credit Institutions Act, when Tier 1 capital is calculated on a consolidated basis, the foreign currency translation reserve consisting of the unrealised exchange differences is added to Tier 1 capital.

In addition, the net loss on hedges of net investments in foreign operations, which has been recognised in other reserves in equity, has been deducted from Tier 1 capital.

The Group does not have Tier 2 and Tier 3 capital.

Capital requirements for both credit risk and operational risk have been determined using the standardized approach.

In determining the capital requirement for foreign exchange risk, the Group has taken into account the exposures covered by the devaluation clauses.
